Case management and housing support

- Up to 3 months to establish connections to ongoing support services
- Flexible approach with intensive support available up to 12 months
- Housing and community support - successful retention in housing and integration into local community

Collaborative Recovery Model

We use the Collaborative Recovery Model (CRM) to support people to identify personal values and goals, and provide support to progress towards achieving them.

Housing-first approach

- Connecting with a range of social, affordable and private housing
- Assist and facilitate housing applications
- Support the establishment of housing
- Case management and coordination into housing

Street to Home transition arrangements

From 1 November 2017 Street to Home will be operated by Neami National and run in partnership with Housing Choices SA. The service is funded by Housing SA, a division of the Department for Communities and Social Inclusion.

During the month of November, Neami and the current Street Crew team will operate joint Street Outreach and are undertaking a coordinated transition of service.
